Roping Cattle Sale

Saturday, February 1, 2025

Market Report

889 Head
64 Consigners
68 Active Buyers

The overall beef industry is seeing unprecedented prices across the entire beef sector. This weekend's Roping Cattle Sale was no exception, and prices certainly did not disappoint. Demand for cattle seems to be at an all-time high as producers search for ways to expand their herd. Tight inventory numbers across the nation tend to complicate this notion which inflated prices to where they are today.

Compared to the November Roping Cattle Sale, ropers and potentials sold mainly $200-$300/hd higher while the better end of the cows sold $300-$400/hd higher. The strength of the market was undeniable, with no weak spots when it came to selling fresh, high-quality cattle that buyers were actively seeking.

Looking ahead, our next Roping Cattle Sale will be April 4th & 5th so call now to get your consignments in. It will be here soon, and you don't want to miss out on this market!
